ABOUT THE COMPANY

Anytech India Private Limited is a professionally managed renewable energy and power solutions company incorporated with the vision of providing reliable, affordable, and sustainable energy solutions across India. Headquartered in Howly, Barpeta, Assam, the company specializes in the distribution, supply, installation, commissioning, operation, and maintenance of rooftop solar power systems, hybrid solar solutions, batteries, inverters, and allied electrical products.

The company is committed to supporting India's clean energy mission through the promotion and implementation of renewable energy projects for residential, commercial, industrial, agricultural, and institutional customers. We actively participate in Government initiatives, including the PM Surya Ghar: Muft Bijli Yojana, and deliver quality products backed by professional engineering support and after-sales service.

OUR MISSION

To make clean and affordable energy accessible to every household, business, and institution by delivering world-class renewable energy solutions with exceptional customer service.

OUR VISION

To become one of the most trusted solar and power solution companies in Northeast India and establish a strong presence across India through innovation, quality, and customer satisfaction.

MARKET PRESENCE & BUSINESS STRENGTH

Anytech India Private Limited is one of the leading distributors and dealers of solar energy products, batteries, inverters, and power backup solutions in Assam. The Company is an Authorized Distributor of Luminous Power Technologies Pvt. Ltd. and a Distributor/Dealer of Eastman Auto & Power Ltd.

With a strong distribution network, experienced management, skilled technical manpower, and a customer-focused approach, the Company has established a growing presence in the renewable energy sector across Assam. We have successfully completed more than **151 rooftop solar installations** under Anytech India Private Limited. Additionally, our associated entity, **Anytech Markets LLP**, has completed **255+ rooftop solar installations** across Assam.

The Company serves residential, commercial, industrial, institutional, and government customers and has earned a reputation for quality products, timely project execution, transparent business practices, and reliable after-sales service. Our continued business growth, repeat customers, and expanding dealer network reflect the confidence and trust placed in us by our clients and business partners.

BUSINESS EXPANSION

As part of its strategic growth plan, Anytech India Private Limited has recently expanded its business operations beyond Assam into **West Bengal, Bihar, and Arunachal Pradesh**. The Company is strengthening its distribution network, dealer partnerships, and solar project execution capabilities in these states to meet the increasing demand for renewable energy and power backup solutions.

With a focus on quality, customer satisfaction, and sustainable growth, the Company aims to establish a strong market presence across Eastern and Northeastern India by delivering reliable solar products, rooftop solar installations, energy storage solutions, and comprehensive after-sales support.

SAFETY

Every installation follows standard electrical safety practices, proper earthing, surge protection, quality testing, and statutory compliance.
